Dear Sirs:

RE: Clean Air Yard Care

Clean Air Yard Care looks after the landscape maintenance of several of the properties we manage, and we have been very pleased with the results.

The feedback we often receive as property managers oftentimes comes in the form of dissatisfaction from residents about a trade or business that services their property. With the Clean Air Yard Care business model and the Horticulturally experienced staff they employ, we rarely hear any comments, other than how quiet their operation is relative to previous gardeners they have employed. One of our properties alone has almost 200 residents and the people are very happy with the quality of the workmanship, the quietness of the equipment and cleanliness of the operation.

We see great potential in this business as more people are becoming increasingly sensitive to the protection of the environment and concerned about noise pollution around their properties.

We think Clean Air Yard Care would be very deserving of the Sustainable Business Practices award.

Yours truly,

CORNERSTONE PROPERTIES LTD.

Peggy A. Madson
Senior Property Manager / Associate Broker
